Guide to information on ... cars and light trucks.

This is the only book that completely lists accurate technical data for all cars imported into the U.S. market from 1946-2000. With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot, little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. &break;&break;Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis, Technical Data, Options and Historical Information. &break;&break;Collectors, restorers and car buffs will love this key book from noted automotive authors, James Flammang and Mike Covello.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

With profiles and reviews of more than 150 new domestic and imported cars and passenger vans, this reference is every car buyer's dream—and the smart buyer's guide to the best deals on wheels. Includes exclusive discount price lists and "low prices" to help shoppers negotiate with salespeople, specifications for all body styles, engines, and EPA fuel economy ratings, rating charts that assess each car in 16 important categories, and more.
