1ZZ-FE to VVT-i engine swap My sister just left for college and now her 99 VE corolla is mine. It seems to be a quick car and of course I am looking for ways to make it faster. I noticed that the VVT-i seems to make a little bit more hp but more torque lower in the RPM range. Would it be cheaper and better to swap the engine to the VVT-i?

1ZZ-FE is "long-stroke" engine - cylinder bore 79 mm x piston stroke 91.5 mm. This contributes to higher torque at low rpm, reduces the heat loss through the walls of a more compact combustion chamber. On the other hand, due to the high average speed of the piston the requirements to piston rings condition increased.
