To really nail the Science section of the ACT standardized exam, you have to understand basic principles of science - experimentation, data collection, numerical and graphic data analysis, and how to develop conceptual conclusions. Who better to write the test prep book than an engineer who loves science? Michael Cerro uses his background as a chemical engineer, chess player, and highly-impactful ACT tutor with years of test prep experience to write a book that offers a new approach to ACT Test Prep rooted in: LOGIC. He brings together copious opportunities to practice with sample problems at each strategic lesson, using customized questions that feel just like the real test. Michael has an ability to create essential teaching moments on each page, as you walk through the book; and you may even have fun doing it! Above all, his love of the exam and of science ensure that anyone who uses this book - from teachers to tutors to students - will master the ACT Science section as well as gain a valuable understanding about the world of science that will be beneficial throughout life.

A Practical Guide to Dermal Filler Procedures is the second book in the new Cosmetic Procedures series especially designed for providers who would like to expand their practice to include minimally invasive cosmetic procedures. Residents or practitioners new to aesthetics and experienced providers alike can benefit from this series which focuses on current aesthetic treatments that can be readily incorporated into office practice. For the "hands on" providers, these commonly performed cosmetic procedures can make the practice of medicine more rewarding, improve patient satisfaction and increase reimbursement. This book provides thoroughly illustrated step-by-step instructions on dermal filler treatments and advice on managing common issues seen in follow up visits. Each chapter focuses on a single dermal filler procedure and reviews all relevant anatomy including target regions and areas to avoid. Injection sites are highlighted to help practitioners perform the procedures more effectively and minimize complication risks. The series foreword has been written by world renowned author, John. L. Pfenninger. Access to a companion website, <http://solution.lww.com/practicalguidefillers> is also included with video clips of every procedure! Look for additional titles in the series: A Practical Guide to Botulinum Toxin Procedures; A Practical Guide to Chemical Peels and Skin Care Products

At the age of seventeen, Lucille Odom finds herself in the middle of an unexpected domestic crisis. As she helps guide her family through its discontent, Lucille discovers in herself a woman rich in wisdom, rich in humor, and rich in love.

Genres across the Disciplines presents cutting edge, corpus-based research into student writing in higher education. Genres across the Disciplines is essential reading for those involved in syllabus and materials design for the development of writing in higher education, as well as for those investigating EAP. The book explores creativity and the use of metaphor as students work towards becoming experts in the genres of their discipline. Grounded in the British Academic Written English (BAWE) corpus, the text is rich with authentic examples of assignment tasks, macrostructures, concordances and keywords. Also available separately as a paperback.

This coursebook is divided into 14 units with a language review at the end of each unit. Authentic texts, motivating topics and fun communication activities engage students of different ages and an extensive writing reference section includes model answers and develops writing skills.
