For UNIX, you buy W. Richard Stevens' Advanced Programming in the UNIX Environment and UNIX Network Programming -- for Win32 you buy Programming Windows by Charles Petzold and this book. Petzold gets you started, Richter lets you pursue the good stuff. Although this is easily a 5 star book, it is not without room for improvement.

Advanced Windows: With CDROM by Jeffrey Richter - Alibris UK

Jeffrey Richter's Advanced Windows is easily the most frequently used (and borrowed) book on my computer bookshelf. It is well written, complete, and contains descriptions and examples of non-GUI Windows programming you simply can not find anywhere else. I plan on buying both of his new books as well.
