The AirPort Express is a Wi-Fi base station product from Apple Inc., part of the AirPort product line. While more compact and in some ways simpler than another Apple Wi-Fi base station, the AirPort Extreme, the Express offers audio output capability the Extreme lacks. The AirPort Express was the first AirPlay device to receive streamed audio from a computer running iTunes on the local network.

As with all popular hardware, this Apple product has changed since its introduction. The first version of AirPort Express arrived in 2004. The original shipped with an 802.11g networking chip and weighed less than 7 ounces, marking the company's entry into the ultra-portable router market. Official specs listed its range at around 150 feet.
