is accompanied by a comprehensive, turn-key ancillary program to help teachers teach and students learn! A special feature of the new edition is the inclusion of NCLEX-PN Alerts, which highlight critical NCLEX-relevant content in each key area, and a voluminous Test Generator that more than doubles the number of questions in the previous edition.

Now in its Ninth Edition, this comprehensive all-in-one textbook covers the basic LPN/LVN curriculum and all content areas of the NCLEX-PN®. Coverage includes anatomy and

physiology, nursing process, growth and development, nursing skills, and pharmacology, as well as medical-surgical, maternal-neonatal, pediatric, and psychiatric-mental health nursing. The book is written in a student-friendly style and has an attractive full-color design, with numerous illustrations, tables, and boxes. Bound-in multimedia CD-ROMs include audio pronunciations, clinical simulations, videos, animations, and a simulated NCLEX-PN® exam. This edition's comprehensive ancillary package includes curriculum materials, PowerPoint slides, lesson plans, and a test

generator of NCLEX-PN®-style questions.

Thinking. Doing Caring. In every chapter, you'll first explore the theoretical knowledge behind the concepts, principles, and rationales. Then, you'll study the practical knowledge involved in the processes; and finally, you'll learn the skills and procedures. Student resources available at DavisPlus (davisplus.fadavis.com).
