| NOOK Book ...
Blood and Snow volumes 1-4 is a really well
developed series. But the length of each book
is so short that is like the four books are
actually one. Blood and Snow: Snow White is a
vampire. What? She lives next to seven
brothers who where adopted by Professor Pops,
who happens to be not so human. He is an ex
hunter of the Evil Queen.

Blood and Snow is a unique blending of the
Snow White fairy tale and a vampire
romance... I am in for the next one! :-) The
challenge is determining what the next one
is. The series isn't organized in GR. It was
apparently first published as a serial, parts
of which have been compiled into books or
seasons. Book 1 is a compilation of Volumes 1
through 8.

Blood & Snow Volume 1 is a collection of the
first four novelletes in the first season of
Blood & Snow - Blood and Snow, Revenant in
Training, The Vampire Christopher, and Blood
Soaked Promises. Although each individual
story is very short, they come together to
make something that's just really fantastic.

Blood and Snow was a great retelling that was fun, exciting, compelling and unique (at least, for me, anyway). This wasn't a perfect novel, but was a joy to read and I will definitely come back for more of Workman's works.

Blood and Snow Volumes 1-4 by RaShelle Workman contains the volumes: Blood and Snow, Revenant in Training, The Vampire Christopher, and Blood Soaked Promises. Each volume is short and the entire set is the length of a novel. I enjoyed the stories very much and read through the set very quickly. It's a modern day twist of the fairy tale Snow White. Snow's best friends are seven guys who live next door to her and her other best friend is Cindy - you guessed it, Cinderella.
