The color blue continued to evolve for the next 6,000 years, and certain pigments were even used by the world's master artists to create some of the most famous works of art.

The History of the Color Blue: From Ancient Egypt to New ...

Blue has had a long and topsy-turvy history in the Western world. The ancient Greeks scorned it as ugly and barbaric, but most Americans and Europeans now cite it as their favorite color. In this fascinating history, the renowned medievalist Michel Pastoureau traces the changing meanings of blue from its rare appearance in prehistoric art to its international ubiquity today.

Blue: The History of a Color - Princeton University Press

As people began to associate blue with the Virgin Mary, the color entered the Church despite the efforts of chromophobic prelates. Blue was reborn as a royal color in the twelfth century and functioned as a formidable political and military force through the French Revolution. As blue triumphed in the modern era, new shades were created, and blue became the color of romance.

Egyptian blue—the first color to be synthetically produce—was invented in Ancient Egypt around 2,200 B.C., around the same time the Great Pyramids were built. To create the hue, Egyptians combined limestone and sand with a copper-containing mineral (such as azurite or malachite) and heated the solution to between 1470 and 1650 degrees fahrenheit.

A Brief History of Blue - Artsy

The Modern History of Blue. The history of blue as a color for everyday man began when the Catholic Church made an important move in the year 431 AD. At this time, the Church decided to color-code the saints, and Mary was given a blue robe. Over time, the shade of blue that Mary wore became what is now known as "navy blue."

The Color Blue: History, Science, Facts | Dunn Edwards Paints

Blue has been an important colour in art and decoration since ancient times. The semi-precious stone lapis lazuli was used in ancient Egypt for jewellery and ornament and later, in the Renaissance, to make the pigment ultramarine, the most expensive of all pigments.

Blue - Wikipedia

A blue is an award of sporting colours earned by athletes at some universities and schools for competition at the highest level. The awarding of blues began at Oxford and Cambridge universities in England. They are now awarded at a number of other British universities and at some universities in Australia, Canada, and New Zealand.

A blueprint is a reproduction of a technical drawing or engineering drawing using a contact print process on light-sensitive sheets. Introduced by Sir John Herschel in 1842, the process allowed rapid and accurate production of an unlimited number of copies. It was widely used for over a century for the reproduction of specification drawings used in construction and industry.

Blueprint - Wikipedia

On the morning of 25 March 1891, a blue whale migrating up the east coast of Ireland was caught by the low tide and stranded on a sandbar just out from the harbour town of Wexford. The whale was young and not yet fully grown, but that didn't stop the locals from taking great interest in the 25.2-metre leviathan from the deep that had been grounded so close to shore.

The secret history of Hope the blue whale has finally been ...

La Barbe bleue or The History of Blue Beard is a centuries-old fairytale. It tells the story of a murderous husband named Blue Beard, and a locked chamber filled with the bodies of his previous wives. This edition, translated from French into English, dates from around 1810. Where does the story come from?
