Since the outbreak of SARS-CoV-2, a number of attempts have been made by experts, researchers and the political elite to explain away its origin, transmission, intent and impact. There is also the explosion of conspiracy theories of which states, researchers, international and corporate entities, the UN, the World Bank, philanthropists and even the Papacy have not been spared. The viral outbreak is even perceived as an attempt by the powerful not only to reduce global population but to expand their control of the world. The book has been written to expand the understanding of the reader on these

critical issues about SARS-CoV-2 which have become very concerning.

This book constitutes the proceedings of the 9th Workshop on RFID Security and Privacy, RFIDsec 2013, held in Graz, Austria, in July 2013. The 11 papers presented in this volume were carefully reviewed and selected from 23 submissions. RFIDsec deals with topics of importance to improving the security and privacy of RFID, NFC, contactless technologies, and the Internet of Things. RFIDsec bridges the gap between cryptographic researchers and RFID developers.

A guide to the Web design program covers such topics as text formatting, Cascading Style Sheets, links, images, tables, page layout, HTML, forms, site management, templates, and JavaScript.

Mobile Software Testing, the second book written by author Narayanan Palani and the first ever book on Mobile Application based software testing as well, has already turned out a best reviewed in the I.T industry. Narayanan Palani is keen in sharing the technical knowledge for those starting out a career in Software Testing or even for those with few years of testing experience. He is endorsed by Tech City UK as an exceptional talent/world leader in digital technology. His aim is to reduce the unemployment of developed countries like United Kingdom and developing countries like India by training the graduate students and jobseekers through his technical books. This book is the culmination of 5 years of research and effort in this field. It gives a pragmatic view of using Mobile Application Technology Testing Techniques in various situations. And is recommended for those aspiring to be experts or advanced users of test automation and performance tools like Experitest, Perfecto Mobile, uTest, Neotys, Soasta, Robotium, Ranorex and Eggplant. From the Reviewers "Mobile testing will capture the market space in the future and this book is very informative for testers who want to reserve the space in the future market"-Sunil Kiran Balijepalli, Team Lead at Cornerstone on demand. "Mobile testing is increasingly complex on day by day due to the range of platforms, devices and innovations. Narayanan has articulated the complex mobile testing approach in simple terms with good references. I am sure, this book will enable QA community to pick up the latest developments in mobile testing arena and the tools available to deliver secured & quality product to the end users" -Ponsailapathi V, Vice President, Polaris Software Lab Limited

Get the most out of your new BlackBerry Pearl 3G!
