As the American election administration landscape changes as a result of major court cases, national and state legislation, changes in professionalism, and the evolution of equipment and security, so must the work of on-the-ground practitioners change. This Open Access title presents a series of case studies designed to highlight practical responses to these changes from the national, state, and local levels. This book is designed to be a companion piece to The Future of Election Administration, which surveys these critical dimensions of elections from the perspectives of the most forward-thinking practitioner, policy, advocacy, and research experts and leaders in these areas today. Drawing upon principles of professionalism and the practical work that is required to administer elections as part of the complex systems, this book lifts up the voices and experiences of practitioners from around the country to describe, analyze, and anticipate the key areas of election administration systems on which students, researchers, advocates, policy makers, and practitioners should focus. Together, these books add to the emerging body of literature that is part of the election sciences community with an emphasis on the practical aspects of administration.

See America with 50 of Our Finest, Funniest, and Foremost Writers Anthony Bourdain chases the fumigation truck in Bergen County, New Jersey Dave Eggers tells it straight: Illinois is Number 1 Louise Erdrich loses her bikini top in North Dakota Jonathan Franzen gets waylaid by New York's publicist...and personal attorney...and historian...and geologist John Hodgman explains why there is no such thing as a "Massachusettsan" Edward P. Jones makes the case: D.C. should be a state! Jhumpa Lahiri declares her reckless love for the Rhode Island coast Rick Moody explores the dark heart of Connecticut's Merritt Parkway, exit by exit Ann Patchett makes a pilgrimage to the Civil War site at Shiloh, Tennessee William T. Vollmann visits a San Francisco S&M club and Many More!

A remarkable rediscovery of Native American government, political participation, and political theory spanning 1,000 years. \* A detailed bibliography providing an in-depth list of books, government documents, and other related publications for use in the disciplines of political science and history \* A chronology of Native American politics and events including the American Indian Movement and the tragedy at Wounded Knee

Americans once gathered on the first Tuesday after the first Monday in November to pick the nation's leaders. Election Day was a day of civic engagement when neighbors met at the polls and then cast their ballots. In the past twenty-five years, however, America has undergone a revolution in voting unlike anything it has experienced in the first 200 years of its history. We have created a system of many mini-election-days leading up to the main event. Today nearly a quarter of Americans vote before Election Day, either by absentee ballot or at early voting places. In 1980, only one in twenty voters voted before Election Day. What has happened? Has the convenience of absentee or early voting compromised the integrity of the process and weakened a unifying civic experience? In Absentee and Early Voting: Trends, Promises, and Perils, John Fortier documents the dramatic increase in absentee voting and, more recently, the meteoric rise in early voting. He examines the legal and historical reasons for changes in the voting system and the many differences across states. Fortier offers his thoughts about what the changes have meant for the country and where we should go from here.
