Raymond Briggs' charming Christmas story of the boy who builds a snowman that comes to life, and their adventures together, has become a children's classic. Its popularity has been further enhanced by frequent television broadcasts of the award winning cartoon film The Snowman. In this piano picture book, composer Howard Blake and animator Dianne Jackson have recreated the story in words, music and vivid color illustrations, based on the scenes from the film. The music, which includes the hit song Walking in the Air, is easy enough to be played by pianists of intermediate ability. This unique and irresistible book will bring the story to life, both at home and in the classroom!

Techniques on how to gain greater fluidity of movement while playing to improve the quality of the experience are offered in this manual for serious piano players. This book encourages musicians to develop a broader understanding of the involvement of the entire body in playing--and the strains playing places on the body--by focusing on body mapping to increase awareness of the body's function, size, and structure. Ways in which piano, organ, harpsichord, clavichord, and digital keyboard players can eliminate or prevent carpal tunnel syndrome and other debilitating conditions without traditional medical treatments are also explored.
