The book shows how designers successfully achieved the specification for rugged and utilitarian design suitable for times of austerity while at the same time producing a truly classless car. Such was the success of the 2CV that it spawned variants such as the Dyane, Ami 6 and Ami 8, and the British-built Bijou, all of which are covered in the book. Illustrated with a unique collection of high-quality photographs and written by an authority on Citroen cars, this concise book tells you
