Just like those technology disruptions flipped the architecture of  
information and brought abundant, cheap and participatory  
information, the clean disruption will flip the architecture of energy  
and bring abundant, cheap and participatory energy. Just like those  
previous technology disruptions, the clean disruption is inevitable  
and will be swift.

The clean disruption is about digital (bit) and clean energy (electron) technologies disrupting resource-based (atom-based) industries. Clean energy (solar and wind) is free. Clean transportation is electric and uses clean energy derived from the sun and wind. The key to the disruption of energy lies in the exponential cost and perfor -
