Site managers must ensure workers are supervised and are following safe working practice.; Sub-contractors and site workers must follow the instructions and plans given to them by those in charge of the work and ensure that their colleagues do too.; Falls from height. During demolition and dismantling, workers can be injured falling from ...

Construction - Demolition - HSE

Construction and demolition waste (C&DW) comprises the largest waste stream in the EU, with relatively stable amounts produced over time and high recovery rates. Although this may suggest that the construction sector is highly circular, scrutiny of waste management practices reveals that C&DW recovery is largely based on backfilling operations and low-grade recovery, such as using recycled ...

Construction and demolition waste: challenges and ...

Solid Waste Technology & Management is a balanced and detailed account of all aspects of municipal solid waste management, treatment and disposal, covering both engineering and management aspects with an overarching emphasis on the life-cycle approach.

Solid Waste Technology & Management | Wiley Online Books

The Commission is introducing the Construction and Demolition Waste Management Protocol (non-binding guidelines) to help practitioners, public authorities, certification bodies and clients of recycled materials to handle properly this waste stream. By promoting management of CDW in line with the waste hierarchy (with a priority for prevention and reuse as higher ranking options than recycling ...
