Why choose? Rebel Even though I can't admit it to myself, my little design firm is going under. Every month, the prospect of reading my reports fills me with dread. Then, my business partner, Roxie, comes breezing into my office with news I can't ignore. We've won an exciting and lucrative new contract. That contract happens to be the remodel of the Wellington twin's French chateau. The only hitch... My horrible ex-fiancé is the one who got us the job. Jonathan I knew from the moment I laid eyes on Rebel that I was in trouble. He was like no Omega I'd ever met before. It doesn't take long for me to realize that he's everything I've ever wanted. The only hitch... My twin brother feels the same way. Logan I knew from the moment I laid

eyes on Rebel that I was in trouble. No Omega has ever made me want to put aside my partying ways and settle down. It doesn't take long for me to realize that Rebel is better than anything I've ever known. The only hitch... There is no hitch. I always get what I want. The Omega's Twin Billionaires is an m/m/m mpreg romance. It's the first book in the Big City Alphas trilogy.

When Elinor Richards' guardian attempted to barter her in marriage to an unsavory gentleman, the desperate heiress only saw one solution. Disguising herself as "Miss Palmer," she took the post of governess to the twin children of the Marquis of Trenville. Yet, when the proximity of her attractive employer heightened her senses intolerably, Elinor saw how rash she had been. For propriety required Adrian to fancy none but a lady -- or a courtesan -- and "Miss Palmer" was neither

When girl meets Duke, their marriage breaks all the rules... Since his return from war, the Duke of Ashbury's to-do list has been short and anything but sweet: brooding, glowering, menacing London ne'er-do-wells by night. Now there's a new item on the list. He needs an heir—which means he needs a wife. When Emma Gladstone, a vicar's daughter turned seamstress, appears in his library wearing a wedding gown, he decides on the spot that she'll do. His terms are simple: - They will be husband and wife by night only. - No lights, no kissing. - No questions about his battle scars. - Last, and most importantly... Once she's pregnant with his heir, they need never share a bed again. But Emma is no pushover. She has a few rules of her own: - They will have dinner together every evening. - With conversation. - And unlimited teasing. - Last, and most importantly... Once she's seen the man beneath the scars, he can't stop her from falling in love...

Curvy bobcat shifter Lainey Robinson is through with men—so she's fleeing to the most out of the way bed and breakfast she can find, in tiny Blue Moon Junction, Florida. She shows up expecting privacy, peace and quiet. What she gets is total chaos—she's landed right in the middle of the local Alpha's wedding week. Worse, some crazy love psychic is insisting that Lainey crash the wedding because her fated mate will be there, tensions are running high between the Blue Moon Pack and a rival pack, and a gorgeous wolf shifter is either suspiciously interested in Lainey, or just suspicious of her.

The reality of Alden... Arrogant. Aloof. Argumentative. Antagonistic. Angry. Alden Kaufman is many things, and none of them are nice. Trauma has left him deeply scarred and incapable of easy friendships. He doesn't know how to let anyone past his walls, and he doesn't think it's worth the trouble. The reality of Kit... Everybody's best friend, nobody's boyfriend. In spite of a lifestyle that doesn't invite attachments, Kit Taylor gets along with everyone he meets—except Alden. He can't entice his prickly co-worker out of his shell, and has given up on trying. The Reality of Us... Two men at odds with themselves and each other embark on what should be a simple team-building exercise, but nothing goes as planned. Unexpected intimacy and a freak accident leave Kit and Alden dependent on each other long after they leave the mountain behind. Now they have a choice—to continue as they've been, or trust a shaky new reality together.?

Roxanne has suffered a concussion after a severe bump to the head, but that's okay - she's having the best hallucination ever. It involves being rescued by an incredibly handsome man who can turn into a wolf and lusts after her like no man ever has before. No, really - in her home town, plain, chubby Roxanne was lusted after by no-one. Her handsome shifter hallucination is so hot, she finds herself wishing she'd never recover. Steele Battle, wolf shifter,

Sheriff of Timber Valley, has met the love of his life - and he must leave her behind, with her memory erased, because she's human and can never know about the existence of his people. A year later, he's still mourning the loss of the woman who captured his heart - when she strolls in to the bar in his remote, out of the way town, which is not on any human map. How did she find him, and what does she want? To keep her safe, Steel has no choice but to hold her captive until the town's shaman returns to erase her memory for good - but will Steele be able to part with the love of his life a second time?

Alphas? Wolf shifter Virginia Battle has had her fill of them. She's grown up with an Alpha dad and four bossy, overprotective older brothers - so there's no way in hell she's going to give arrogant, sexy Carver Lawrence the time of day. Yet he keeps showing up everywhere she goes, scaring off all the guys who want to date her - and not making a single move on her. Then after one drunken night in a casino, she wakes up next to him in bed...with a wedding ring on her finger. Now her pack is howling for his blood (literally), he's insisting that she's really his wife, and before she knows it she's whisked off to a sexy honeymoon at a mountain resort. Carver's known from the minute he laid eyes on Virginia that she was meant to be his - but can a strong-willed woman (with some pretty big secrets) and a demanding dominant Alpha ever find love? Just when Virginia's starting to think that being married to a man who comes equipped with his own handcuffs might not be the worst thing in the world, she and Carver learn that there's something very wrong at Honeymoon Mountain. Does it have anything to do with the secret she's been keeping from her family? And with the townspeople hiding a deadly secret of their own, and someone - or something - very scary sniffing around at her cabin, will she survive long enough to find out?

Nerd Queen, Aliya Grey, has been picked on her entire life for being different. She is done with shifter society. When the chance comes to leave the pack, she jumps for joy. But she didn't expect that during the exchange of power ceremony, the super-hot and totally lickable, incoming Alpha would tell her he wants her. That doesn't happen to Ali. Nope. Never. Marcus and his wolf know Aliya is the one. Giving up his playboy lifestyle attests to how badly he wants her. Ali might be a half-breed, but that doesn't matter. No way is he letting her leave. A little stalking, a bit of seduction and a whole lot of time together will get her to change her mind. He's confident. Unfortunately, it's not as simple as romancing her. Ali's done with the pack from hell and no matter how sexy Marcus is, she's out of there. But first she needs to see him naked. He's so big and strong and that grin...but she's not staying. It takes an attack on Ali's life for Marcus to see his pack has big issues he needs to fix or lose Ali for good.

This book collects the contributions of a number of clinical psychiatrists all over the world, interested in developing basic research about anxiety and in applying it in clinical contexts. It is divided into four sections, covering general issues about anxiety (ethological and developmental ones), basic research issues on specific aspects of anxiety (bioanatomical ones, correlation with personality structure and so on), and new clinical and therapeutical proposals and hypothesis. Each author summarized the clinical importance of his work, underlining the clinical pitfalls of this publication.
