Abe Allard and C.S. Duffy are not handsome, wise, or tough. They're not successful. They're not good at much, but they do know how to solve a mystery. A woman digging into the adoption of her long-lost twin brother starts getting close to a long-buried secret which riles up those who would rather it stayed hidden. Fearing for her safety, she asks Abe and Duff to find out what really happened that night, and why would someone be willing to keep this adoption from being brought to light.

Author Vizard covers blending the bowls, basic porting

procedures, as well as pocket porting, porting the intake runners, and many advanced procedures. Advanced procedures include unshrouding valves and developing the ideal port area and angle.

Simple! Fun! A story of a boy and his journey to find some popcorn. Travel with him through the ups and downs of his journey to discover...Where's the Popcorn!

Evolution or revolution ... this was the dilemma Honda faced in creating the new fifth generation Gold Wing. Consumers were happy with the near-perfect GL1500 Gold Wing, but sales were declining and owners ageing. In 1996 Honda's designers and engineers decided the only way forward for the Gold Wing was a revolutionary approach. Given a brief by management to incorporate more 'Fun Factor' and make a large luxury touring motorcycle perform like a sports orientated machine, their target market was the younger rider. The GL1800 Gold Wing launched as a 2001 model and was updated in 2006 with the world's first and only motorcycle airbag system. Surviving a production return to Japan it had a second face-lift for 2012 and from that, two other variants emerged, a 'Bagger' and 'Power Cruiser', the F6B and Valkyrie/F6C. The GL1800 was destined to become the longest running Gold Wing series, but over its 17 years of production Honda faced stiff competition. Peter Rakestrow examines the GL1800's history from 1996 to the end of production in 2017, looking at model improvements through the years of this legendary marque, creating a point of reference for owners, buyers and restorers alike.

This book deals with positive tactics officers can employ on the street to effectively use their own firearms to defeat those of assailants. It is devoted exclusively to understanding and

mastering techniques that work for survival in real life situations. Unfortunately, most of the current literature on so-called 'combat shooting' explores what works against paper targets. Few street-wise experts or truly contemporary articles have emerged on street survival, although deadly assaults on the police continue to occur year after year. This book can help make you survival sensitive. The techniques it emphasizes are designed to affect the way you prepare, plan and react, to keep you alive in real situations. They are not hypotheses, but proven procedures, based on the insights of officers who have experienced gun battles and survived and on the lessons left behind by those who have died.

Written by well-respected authors, the Cambridge Checkpoint Mathematics suite provides a comprehensive structured resource which covers the full Cambridge Secondary 1 Mathematics framework in three stages. This brightly illustrated Coursebook for Stage 8 offers a comprehensive introduction to all topics covered in the syllabus. Worked examples show students how to tackle different problems, and plenty of exercise questions prepare students for the different types of questions they will face in their Progression test. Coverage of the Problem Solving framework is integrated throughout the course, with questions relating to the Problem Solving framework statements highlighted in the Coursebook. There is an accompanying Practice Book and Teacher's Resource CD-ROM available separately.

The Super-Afrikaners, originally published in South Africa in 1978, scandalised a nation as it exposed the secret workings of a powerful Afrikaner organisation called the Broederbond. Out of print for over three decades, this new edition is available for a new generation and includes an introduction by Max du Preez. Formed in Johannesburg in 1918 by a

group of young Afrikaners disillusioned by their role as dispossessed people in their own country, the first triumph of this remarkable organisation was the fact that it was largely responsible for welding together dissident factions within Afrikanerdom and thereby ensuring the accession of the National Party to power in 1948. This highly organised clique of Super-Afrikaners, by sophisticated political intrigue, waged a remarkable campaign to harness political, social and economic forces in South Africa to its cause ... and succeeded. Political journalists Hans Strydom and Ivor Wilkins traced, at great personal risk, its development from its earliest days. The book includes the most comprehensive list of Broeders ever published.

More than a memoir of a custom cafe racer build this book is a tribute to a teacher who inspired young people to be creative with their minds and capable with their hands. Growing up in Fargo, North Dakota in the 1970s and 80s, The Urban Monk had the opportunity to develop a love for machines, metal working and motorcycles. This book provides a glimpse into what life was like for the author and his young friends in Fargo during that time. It is also a poignant defense of industrial arts education in public schools. After an over three year effort building a custom cafe racer in his spare time and documenting the entire process in videos shared with the world on his YouTube channel Urban Monk TV, the author tells the story of how this project became more than a custom motorcycle build - it became a tribute to his middle school Metal Shop teacher who inspired him to go on to a life time of peaceful meditation in his garage with a wrench in his hand. Anyone interested in motorcycles, mechanics, do-it-yourself projects or a historical retrospective of life in 70s-80s Fargo will enjoy this pleasant read.

It is the motorbike that makes Vietnam tick. In Saigon alone, two million ply the streets. People commute by bike, father take their kids to school by bike, and products find their way to the consumers by motorbike. This title offers a selection of author's finest shots - often taken from the back of one of the self-same bikes. It is the motorbike that makes Vietnam tick. In Saigon alone, two million ply the streets. People commute by bike, father take their kids to school by bike (you'd be surprised how many at a time!), and products find their way to the consumers by
