Activity Of Costus Igneus L

**Evaluation Of  
Antidiabetic**

**Activity Of Costus**

**Igneus L**

Right here, we have countless book **evaluation of antidiabetic activity of costus igneus l** and collections to check out. We additionally have enough money variant types and also type of the books to browse. The suitable book, fiction, history, novel, scientific research, as with ease as various new sorts of books are readily nearby here.

The in vitro antidiabetic activity of the aqueous leaf extract and AgNPs was confirmed by non-enzymatic glycosylation of hemoglobin, glucose uptake by yeast cells following exposure of cells to 5 or 10 mmol/L glucose solution, and inhibition of  $\alpha$ -amylase. Further, in vivo antidiabetic activity was assessed in streptozotocin-induced rats.

ABSTRACT. The objective of the study was to evaluate the antidiabetic activity of Ginkgo biloba and to probe into its mechanism of action. Methods. Albino wistar rats with streptozotocin induced diabetes were divided into 4 groups of 10 each. Gum acacia, troglitazone 36 mg/kg, Ginkgo biloba 50 mg/kg and 100 mg/kg, were

Objective: To explore the antidiabetic properties of *Mucuna pruriens* (M. pruriens). Methods: Diabetes was induced in Wistar rats by single intravenous injection of 120 mg/kg of alloxan monohydrate and different doses of the extract were administered to diabetic rats. The blood glucose level was determined using a glucometer and results were compared with normal and untreated diabetic rats.
