This book explores Alan Moore's career as a cartoonist, as shaped by his transdisciplinary practice as a poet, illustrator, musician and playwright as well as his involvement in the Northampton Arts Lab and the hippie counterculture in which it took place. It traces Moore's trajectory out from the underground comix scene of the 1970s and into a commercial music press rocked by the arrival of punk. In doing so it uncovers how performance has shaped Moore's approach to comics and their political potential. Drawing on the work of Bertolt Brecht, who similarly fused political dissent with experimental popular art, this book considers what looking strangely at Alan Moore as cartoonist tells us about comics, their visual and material form, and the performance and politics of their reading and making.

In 1941, a young man imagines thrilling battles and heroic acts when he lies about his age and joins the army. Assigned to the Winnipeg Grenadiers, part of the Canadian army in Hong Kong, Freddy McKee becomes a prisoner of war six weeks after arriving in Hong Kong. Five years pass and Freddy finally returns home from the war, but three women—Joanna Keegan, her daughter Hope, and the beautiful and mysterious Su Li—feel echoes of Freddy's ordeal in each of their lives. For Freddy, the memory of war is a heavier burden than the weapon he once carried. Freddy must fight to survive in a world that has left him behind. "Veterans traditionally have never shared the hell of their war. Often the only way to get close to their experiences is via skillful fiction. Gritty and well-researched, Freddy's War takes us to the siege of Hong Kong and back." —Ted Barris, author and military historian "Wartime love stories are the stuff of cliché, but there's no false sentimentality in Freddy's War. With a cool reporter's eye, Schultz draws on her deep knowledge of China, and of prairie social history, to craft an understated, elegaic story of loneliness, loss, and dislocation." —Paula Simons, Edmonton Journal

Includes: South Africa, Rhodesia, Zambia, Malawi, South-West Africa, Mocambique, Angola, Swaaziland, Botsawana and Lesotho.

The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. "Gaspingly funny and wonderfully inappropriate."—O, The Oprah Magazine When Jenny Lawson was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives.
