Funding a Revolution: Government Support for Computing ...

The federal government has made significant contributions to the research base for computing technology. As detailed in Chapter 3, federal support has accounted for a substantial fraction of the total funding for computing research in the United States and the vast majority of all university research funds in the field. Such funding has supported both the development of new technologies and the ...

Funding A Revolution Government Support For Computing Research

Funding a Revolution shows the interactions among players in academic circles, government and industry. It is fitting that benefits of the computer revolution accrue to the U.S. Federal, State and Municipal governments in delivering services to citizens, to U.S. citizens, and to the U.S. economy in productivity gains, job growth, and the growth of the computing industry.
