If writing is like thinking, then studying writing is like studying thinking. This book is a study of legal writing and the law school admissions process, which provides candid advice on navigating the LSAC.org application process, the LSAT, and a style of writing called "FIRAAC." The FIRAAC formula can help prelaw students learn to write (think) like a law student. FIRAAC can also help law students pass "race-horse" exams and bar candidates pass the bar exam. If your goal is to go to law school, graduate, pass the bar exam, and become a lawyer who writes (thinks) lucidly and clearly, then this book is for you!

Professors Fischl and Paul explain law school exams in ways no one has before, all with an eye toward improving the reader's performance. The book begins by describing the difference between educational cultures that praise students for "right answers," and the law school culture that rewards nuanced analysis of ambiguous situations in which more than one approach may be correct. Enormous care is devoted to explaining precisely how and why legal analysis frequently produces such perplexing situations. But the authors don't stop with mere description. Instead, Getting to Maybe teaches how to excel on law school exams by showing the reader how legal analysis can be brought to bear on examination problems. The book contains hints on studying and preparation that go well beyond conventional advice. The authors also illustrate how to argue both sides of a legal issue without appearing wishy-washy or indecisive. Above all, the book explains why exam questions may generate feelings of uncertainty or doubt about correct legal outcomes and how the student can turn these feelings to his or her advantage. In sum, although the authors believe that no exam guide can substitute for a firm grasp of substantive

~Why practice taking exams?~ Siegel's Essay and Multiple-Choice Questions and Answers are designed to show you how to handle law school examination questions. Siegel's have been used by thousands of law students during the past decade, and any one will tell you why -- doing practice exam questions is the key to exam success. To ace your exams, you must (1) memorize blackletter principles and rules of law for each subject, and (2) understand how those principles of law arise within a test fact pattern. One of the most common misconceptions about law school is that you must memorize each word on every page of your casebooks or outlines to do well on exams. The reality is that you can commit an entire casebook to memory and still do poorly on an exam. Reviewing hundreds of student answers has shown us that most students pretty much know the law. The ones who do best on exams understand how legal problems (issues) stem from the rules of law which they have memorized and how to communicate their analysis of these issues to the grader. Working through Siegel's essay and multiple-choice questions and answers will give you the practice you need to achieve superior scores on your law school exams. Each essay question comes with an extensive, well-organized model answer. Every multiple-choice question comes with a detailed answer that tells you not only why the correct answer is correct, but why each of the other choices are wrong, so you can better understand why you're choosing the wrong answer. students taking a seminar on rhetoric. The book is divided into two main sections: The first section examines rhetorical theory and its impact on legal argument from the time of ancient Greece to date. The second section, organized by the canons of classical rhetoric, discusses practical applications of rhetorical theory to the specific task of learning to think and write like a lawyer in the twenty-first century. By fusing theory and practice, a legal writer acquires depth—the ability to analyze an issue effectively using all available resources—as well as breadth—the ability to transfer her talent from one context to another. Each chapter includes questions for consideration by the students as well as samples exercises and suggested answers.
