In the 1990s a newspaper revolution began blowing across northern and central India. In these Hindi-speaking states, when literacy levels rose, communications expanded, and purchasing power climbed, Hindi newspapers followed-picking up readers in small towns and villages. Even while these newspapers surged to the top of national readership charts, they localised furiously in the race for readers. But in this universe of local news, questions arose about what localisation was doing to regional identity and consciousness. Using notes from her pioneering field-study in eight states, Sevanti Ninan brings alive India's ongoing rural newspaper revolution, and its impact on politics, administration and society. Set against the socio-economic and political changes in the countryside, it is a remarkable story of how journalism

flowered in unexpected and unorthodox ways, and colourful media marketing unfurled in the Hindi heartland.

Wilkinson.

This edited volume considers why the African language press is unstable and what can be done to develop quality African language journalism into a sustainable business. Providing an overview of the African language journalism landscape, this book examines the challenges of operating sustainable African language media businesses. The chapters explore the political economy and management of African language media and consider case studies of the successes and failures of African language newspapers, as well as the challenges of developing quality journalism. Covering print and digital newspapers and broadcast journalism, this book will be of interest to scholars of media and journalism in Africa.

Containing almost 250 entries written by scholars from around the world, this two-volume resource provides current, accurate, and useful information on the politics, economics, society, and cultures of India since 1947. • 240 A–Z entries on the social, political, cultural, and economic development of India since 1947 • Contributions from more than 100 distinguished international scholars from five continents • A chronology of major domestic, regional, and world events in and involving India from 1947 to 2010 • A "Guide to Related Topics" to allow

readers to trace main themes across related entries • An extensive Selected Bibliography containing multicultural and multidisciplinary materials and scholarship on the growth and development of the Republic of India from 1947 to the present

At a time when the media's relation to power is at the forefront of political discussion, this book considers how journalists can affect public discourse on politics, economy and society at large. From well-known and respected authors providing all new material, *Making Journalists* considers journalism education, training, practice and professionalism across a wide range of countries, including Saudi Arabia, Africa, India, USA and the UK. The book offers insights into: what journalism is how education makes the journalist and, therefore, the news models of journalism taught and practised across the globe the ethical implications of the process. When news reporting can lead to decisions on whether or not to go to war, everything can be affected by journalists and their mediation of the world. This text brings these present issues together in one invaluable resource for all students of journalism, politics and media studies.

In the ever-changing information environment of the early twenty-first century, citizens and journalists alike are eagerly adapting to new technologies, and India is no different. The country's communication revolution in the post-liberalization era has led to one of the largest media markets in the world. Further, changes in media ownerships and the blending of news with opinions have impacted established practices of reporting. Given the breadth and scope of India's media, there is little meaningful literature available about journalism practised in the country today. *Indian Journalism in a New Era* brings together informative and critical

contributions about contemporary Indian journalism from twenty-one Indian and global scholars and journalists. The book is divided into four different sections, each addressing one relevant aspect: history and evolving changes; social media and e-journalism; marginalization; and pedagogy, ethics, and public sphere. The contributors address issues like changes in journalism practices, socio-economic conditions of the Indian state, and minority politics. Holistically, the volume focuses on the ways to approach and analyse the enormity and scope in Indian journalism, media technology, and global relations.

When he called India a "functioning anarchy," economist Kenneth Galbraith may have been thinking about Uttar Pradesh (UP), in northern India. Some Indians laughingly refer to Uttar Pradesh as a "loser state." Known as a home of deep poverty, incurable corruption and sticky social problems, UP is not the India that now appears regularly in *The New York Times* and *Newsweek*. This is the other India; the one that modernity has largely left behind, and this book is the result of Rick Connerney's repeated residencies over the last 18 years in that state. Most of India's 1.13 billion people live far from the call centers of Bangalore and Delhi and Westernized cities like Mumbai. A huge slice of humanity, 17.5% of the world's population, is practically invisible and impenetrable to most Americans. Exploring the realities of agriculture, business, the environment, politics, the economy, marriage, language and the arts, the author introduces the real people of India. At the heart of each chapter lies an epiphany about Indian culture — Copernican intellectual shifts, radical reverses in the way the author made sense of the environment, when the evidence seemed to support one conclusion but further experience pointed to a different answer."
