The book studies Iqbal's critique of nationalist ideology and his attempts to chart a path for the development of the 'nation' by liberating it from the centralizing and homogenizing tendencies of the modern state structure. There have been four or five Sanskrit-English Dictionaries published till now;

but very few of them fulfil the two essential conditions of the popularity and usefulness of such works: satisfying all the requirements of students and at the same time being within their easy reach. The Dictionaries of Professors Wilson and Monier Williams are very useful and valuable works, but their prices-particularly of the latter-are prohibitively high, and they do not also meet many of the most ordinary wants of Sanskrit readers. A student, while reading Sanskrit at School or College, generally expects that the Dictionary which he uses will give will give appropriate equivalents for such words and compound expressions as may have peculiar meanings or shades of meaning in particular passages.
