Loss Models, Third Edition
is an essential resource for
students and aspiring
actuaries who are preparing
to take the SOA and CAS
preliminary examinations. It
is also a must-have
reference for professional
actuaries, graduate students
in the actuarial field, and
anyone who works with loss

and risk models in their
everyday work.

~~Loss Models | Wiley Series
in Probability and
Statistics~~

Loss Models: From Data to
Decisions is organized
around the principle that
actuaries build models in
order to analyze risks and
make decisions about
managing the risks based on
conclusions drawn from the
analysis. In practice, one
begins with data and ends
with a business decision.
The book flows logically
from this principle.
