About the Expert Bruce Stimson started his factoring career in 2001, when he founded

QLFS, which eventually became the Invoice Trucking Group. Mr. Stimson led the firm through its initial growth and established it as a leading provider to startups and small companies in the New England region. After QLFS, Mr. Stimson launched Trucking Capital LLC to provide services in the USA, Canada and Australia. Under his leadership, Trucking Capital LLC has expanded to offer a number of business finance products and can help companies in most industries. Trucking Capital LLC is one of the few companies that offers micro-factoring (also called small-ticket factoring), which helps early-stage companies with limited revenues. Small business factoring has been ignored by larger factoring firms and banks, establishing Mr. Terry as a pioneer in this market. Before starting his career in finance, Mr. Stimson held several management positions in operations and marketing in the telecommunications industry for eight years. He earned a Master's Degree in Finance with a concentration in banking. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.

This collection of behind-the-scenes happenings from the history of the beloved stock car series shares stories of the great and the infamous, revealing privy insights into the drivers that fans thought they knew everything about. The book grants a glimpse into Buck Baker's tomato juice incident, how

In this urgent, authoritative book, Bill Gates sets out a wide-ranging, practical--and accessible--plan for how the world can get to zero greenhouse gas emissions in time to avoid a climate catastrophe. Bill Gates has spent a decade investigating the causes and effects of climate change. With the help of experts in the fields of physics, chemistry, biology, engineering, political science, and finance, he has focused on what must be done in order to stop the planet's slide to certain environmental disaster. In this book, he not only explains why we need to work toward net-zero emissions of greenhouse gases, but also details what we need to do to achieve this profoundly important goal. He gives us a clear-eyed description of the challenges we face. Drawing on his understanding of innovation and what it takes to get new ideas into the market, he describes the areas in which technology is already helping to reduce emissions, where and how the current technology can be made to function more effectively, where breakthrough technologies are needed, and who is working on these essential innovations. Finally, he

lays out a concrete, practical plan for achieving the goal of zero emissions--suggesting not only policies that governments should adopt, but what we as individuals can do to keep our government, our employers, and ourselves accountable in this crucial enterprise. As Bill Gates makes clear, achieving zero emissions will not be simple or easy to do, but if we follow the plan he sets out here, it is a goal firmly within our reach.

A definitive account of the popular Ducati Desmodue - the reliable, affordable, high-performance motorcycle range that boasts one of the most successful Italian motorcycles of all time, the Ducati Monster, and is still in development today. Including full production histories, comprehensive specification details and owners' experiences, this new book covers the history of Ducati and the rise of the brand in the 1970s and Grand Prix racing with Fabio Taglioni's desmodromic valve engine design. The world-beating TT2 and TT1 racers are covered along with the best-selling Ducati Monster, the Desmodue 900SS and the SportClassic range. With the Scrambler, and new Ducati factories in Thailand and Brazil, the Desmodue story is brought right up to date - a story based a wonderful corner of Italy, some very special motorcycles and the astonishing people who made it all happen. Fully illustrated with 211 colour photographs.
