With the continued fragmentation of the media and proliferation of media options, the balance of power has shifted from the marketer to the individual. In Join the Conversation, Jaffe discusses the changing role of the consumer and how marketers must adapt by joining the rich, deep and meaningful conversation already in progress. This book reveals what marketers must do to become a welcome and invited part of the dialogue, and how to leverage and integrate the resulting partnership in ways that provide win-win situations for businesses, brands and lives.

You're on the go all the time — maybe for business, maybe because it's a byproduct of your busy lifestyle. But either way, your life would be easier if you had Internet access wherever you are. Well, when it comes to the Internet, you CAN take it with you! You just need the right stuff, and *Mobile Internet For Dummies* tells you what that is, how to find it, and how to use it. This easy-to-follow guide is packed with tips on choosing the best mobile device, software, and service provider for your needs, but that's not all. You'll see how to use your mobile Web browser, find made-for-mobile content (and create your own) and much more. *Mobile Internet For Dummies* explains how the Mobile Internet differs from the garden-variety Internet, and shows you how to: Find your mobile phone browser Use the Mobile Internet to surf, shop, blog, watch movies, and more — on the go Send and receive e-mail from your mobile device Locate other mobile applications Watch TV on your mobile phone Manage your kids' access to the Mobile Internet Secure and name a mobile Internet site and acquire mobile Web development tools Build your own made-for-mobile Web site Use your Mobile Internet site to promote your business and generate revenue With the help of *Mobile Internet For Dummies*, you'll be able to stay connected wherever you happen to be, and maybe even make it pay off with a bit of income.

As the 8th most visited site on the Internet according to the Alexa Internet traffic ratings, and with more than 30 million new words a month of content added regularly, Wikipedia has become a symbol of the web's current incarnation the collaborative project that has developed around the world to compile the knowledge and expertise of everyone. Wikis are a great tool that allow any topic, anywhere, to be compiled and crosschecked by just about anyone to great effect whether it is simply to provide knowledge or to promote a business. A wiki is a tool unlike any other. In this book, you will learn everything you need to know to unlock the potential of the Wiki format. The top secrets, techniques, and strategies used by Wiki operators every day are showcased here in a way that makes it possible for the ordinary person to pick up a Web site and start writing right away, sharing or gathering knowledge for the entire world to read. You will learn in this book exactly why the wiki concept has been so successful but also how wikis do things wrong and how they can be done correctly. The fundamental basics of writing a wiki, including how to format your posts, what to write about, the correct means of writing impartial entries, and how to reference outside sources will be covered in full. You will learn how to edit an existing wiki entry and how to start using your wiki for other purposes. Learn the top 20 strategies for wiki marketing as well as the importance of volume in your wiki and why having a great deal of posts to index in search engines is nearly as important as the writing being high quality. The author has spent time talking and listening to more than a hundred of the Internet's top wiki experts, learning their tricks of the trade and how they have been so successful in presenting their information and have compiled and presented it here for you. You will learn how to start making money with your wiki, how to track changes and revisions, and how different kinds of wikis vary and work in different ways. You will learn how to start building your very own wiki from the ground up using free software and open source tools and why linking and SEO optimization is absolutely necessary to be effective. For anyone who has ever spent ten minutes on Wikipedia wondering how they could start building their very own information compendium, this book is for you a complete guide to everything wiki.
