A New York Times Editors' Choice A bold new book reveals how we can tap the intelligence that exists beyond our brains—in our bodies, our surroundings, and our relationships Use your head. That's what we tell ourselves when facing a tricky problem or a difficult project. But a growing body of research indicates that we've got it exactly backwards. What we need to do, says acclaimed science writer Annie Murphy Paul, is think outside the brain. A host of "extra-neural" resources—the feelings and movements of our bodies, the physical spaces in which we learn and work, and the minds of those around us—can help us focus more intently, comprehend more deeply, and create more imaginatively. The Extended Mind outlines the research behind this exciting new vision of human ability, exploring the findings of neuroscientists, cognitive scientists, psychologists, and examining the practices of educators, managers, and leaders who are already reaping the benefits of thinking outside the brain. She excavates the untold history of how artists, scientists, and authors—from Jackson Pollock to Jonas Salk to Robert Caro—have used mental extensions to solve problems, make discoveries, and create new works. In the tradition of Howard Gardner's *Frames of Mind* or Daniel Goleman's *Emotional Intelligence*, *The Extended Mind* offers a dramatic new view of how our minds work, full of practical advice on how we can all think better.

Outside the Camp is a powerful prophetic perspective of the changing landscape of the church, providing a breath of fresh air and much needed encouragement to believers. With insight from Scripture, through dreams, a vision, and a personal journey of humility, Colin heralds "He makes winds his messengers" (Psalm 104:4). There is an age-old resistance to these winds. Are you with the winds or resisting them? Here is a compelling summons for believers to go to Jesus and be with him "outside the camp" (Hebrews 13:13).

A personal and empowering blueprint—from one of America's rising Democratic stars—for outsiders who seek to become the ones in charge Leadership is hard. Convincing others—and often yourself—that you possess the answers and are capable of world-affecting change requires confidence, insight, and sheer bravado. *Minority Leader* is the handbook for outsiders, written with the awareness of the experiences and challenges that hinder anyone who exists beyond the structure of traditional white male power—women, people of color, members of the LGBTQ community, and millennials ready to make a difference. In *Minority Leader*, Stacey Abrams argues that knowing your own passion is the key to success, regardless of the scale or target. From launching a company, to starting a day care center for homeless teen moms, to running a successful political campaign, finding what you want to fight for is as critical as knowing how to turn thought into action. Stacey uses her experience and hard-won insights to break down how ambition, fear, money, and failure function in leadership, while offering personal stories that illuminate practical strategies. Stacey includes exercises to help you hone your skills and realize your aspirations. She discusses candidly what she has learned over the course of her impressive career: that differences in race, gender, and class are surmountable. With direction and dedication, being in the minority actually provides unique and vital strength, which we can employ to rise to the top and make real change.

Is your special friend always waiting at the door for you with a wagging tail and an unconditional look of happiness? Is your favorite lap warmer always ready to keep you company on dark and stormy nights? No matter if your friend is furry, finned, feathered, or leathered, no doubt your pet plays an important role in your life and your family. In fact, your pet may be your family. But after the inevitable happens and you sob your last good-bye, will you see your pet again? In Heaven? Does your pet have a soul? Will your pet go to Heaven? This fun and light-hearted look at a seriously sad subject reveals many perspectives about Spot's stairway to Heaven, Fluffy's final resting place, and birds of Paradise. Will your pet rabbit rest in peace, or will your fish float forever in the septic tank? In addition to their own blend of passionate and compassionate diva dialogue, the four writers quote devoted pet owners, clergy, friends, family, and even those who just aren't "pet people."
