Paper II (Part-A) I Comparative and Analytical Study of the Political Systems Political System of U.S.A Political System of U.K.

This book is a textbook designed for teaching a new subfield in political science: the emerging field of "comparative political theory". It is the first such textbook. As taught in American universities, political theory has been traditionally confined to the history of Western political thought from Plato and Aristotle to Hegel and Nietzsche. The editor believes strongly that this limitation is no longer tenable in our globalizing age when different cultures and civilizations are increasingly communicating and interacting with each other. The text focuses on three areas: Islamic civilization, Indian civilization, and Far Eastern civilizations. In each area the text offers an introduction followed by readings dealing with

ancient or classical teachings as well as modern and contemporary theoretical developments. In making these selections, the editor has been ably assisted by experts in the respective fields (Roxanne Euben, Anthony Parel, and Theodore deBary). The text is meant mainly for undergraduate classes but can be consulted with benefit also by more advanced students as well as by the general reading public.

COVID-19 is the most significant global crisis of any of our lifetimes. The numbers have been stupefying, whether of infection and mortality, the scale of public health measures, or the economic consequences of shutdown. *Coronavirus Politics* identifies key threads in the global comparative discussion that continue to shed light on COVID-19 and shape debates about what it means for scholarship in health and comparative politics. Editors Scott L. Greer, Elizabeth J. King, Elize Massard da Fonseca, and André Peralta-Santos bring together over 30 authors versed in politics and the health issues in order to understand the health policy decisions, the public health interventions, the social policy decisions, their interactions, and the reasons. The book's coverage is global, with a wide range of key and exemplary countries, and contains a mixture of comparative, thematic, and templated country studies. All go beyond reporting and monitoring to develop explanations that draw on the authors' expertise while engaging in structured conversations across the book.

This landmark book represents the first publication of original writing by Radclyffe Hall, author of *The Well of Loneliness*, in over 50 years. One of the most famous and influential lesbian novelists of the twentieth century, Hall became a cause célèbre in 1928, upon the

publication of her novel *The Well of Loneliness*, when the British government brought action on behalf of the Crown to declare the book obscene. Probably the most widely read lesbian novel ever written, the book has been continuously in print since its first publication and remains to this day an important part of the literary landscape. Expertly deciphered and edited by Hall scholar and biographer Joanne Glasgow, *Your John* is a selection of Hall's love letters to Evguenia Souline, a White Russian émigré with whom Hall fell completely and passionately in love in the summer of 1934. Written between this first meeting and the onset of Hall's last illness in 1942, these letters detail Hall's growing obsession, the pain to her life partner Una Troubridge of this betrayal, and the poignant hopelessness of a happy resolution for any of the three women. It was ultimately this relationship, Glasgow argues, which tragically precipitated the decline in Hall's creative work and her health. The letters also provide important new information about her views on lesbianism and take us well beyond the artistic limits she imposed on the characters in *The Well of Loneliness*. They shed light on her views on religion, politics, war, and the literary and artistic scene. Illuminating both the nature of her relationships and her views on the current politics of the time, *Your John* will greatly extend the range of our knowledge about Radclyffe Hall.

Based on O'Neil, Fields, and Share's market-leading textbook and casebook, *Cases and Concepts in Comparative Politics: An Integrated Approach* integrates concepts and cases in one volume. Students get all of the materials in a straightforward, easy-to-use, and cost-effective way.

Offers a groundbreaking analysis of the distinctive substantive, theoretical and methodological contributions of subnational research in the field of comparative politics.

A new theoretical analysis of the rise of Donald Trump, Marine le Pen, Nigel Farage, Geert Wilders, Silvio Berlusconi, and Viktor Orbán.

Empirical Studies in Comparative Politics presents a collection of papers analyzing the political systems of ten nations. It intends to provoke a conscious effort to compare, and investigate, the public choice of comparative politics. There have been many publications by public choice scholars, and many more by researchers who are at least sympathetic to the public choice perspective, yet little of this work has been integrated into the main stream of comparative political science literature. This work, however, presents an empirically oriented study of the politics, bureaucratic organization, and regulated economies of particular nations in the canon of the comparativist. It therefore provides a public choice view at the level of nations, not of systems. This compendium of work on comparative politics meets two criteria: In every case, a model of human behavior or institutional impact is specified; Also in every case, this model is confronted with data appropriate for evaluating whether this model is useful for understanding politics in one or more nations.

The new edition of this leading overview of comparative politics once again blends theory and evidence across democratic systems to provide unparalleled coverage. The student-friendly structure and clear, concise writing ensure that complex issues are clearly explained and students engage with the key theories. The third edition is updated throughout, with a new chapter, 'Public Spending and Public Policies', increased coverage of defective democracies, and revised coverage of e-democracy and the power of the media. The pedagogy is simplified with a focus on 'Briefings' and 'Controversies' that feature examples from across the globe, alongside clear key terms, 'What We Have Learned' and 'Lessons of Comparison' sections, and a wealth of online materials to complete a rich teaching and learning package.
