The Path of Least Resistance: Learning to Become the ...

The pareto principle is the theory that 80% of a result is achieved with the first 20% of effort. For example, a student who can get an 80% score on a test with 3 hours of study but would need to study for 15 hours to get 100%. In this case, the path of least resistance is to do the 20% of work that gets you the 80% result.

12 Examples of The Path Of Least Resistance - Simplicable

In physics, the "path of least resistance" is a heuristic from folk physics that can sometimes, in very simple situations, describe approximately what happens. It is an approximation of the tendency to the least energy state. Other examples are "what goes up must come down" and "heat goes from hot to cold" (second law of thermodynamics). But these simple descriptions are not derived from laws of physics and in more complicated cases these heuristics will fail to give even approximately ...

The principle of least effort is a broad theory that covers diverse fields from evolutionary biology to webpage design.It postulates that animals, people, and even well-designed machines will naturally choose the path of least resistance or "effort". It is closely related to many other similar principles: see Principle of least action or other articles listed below.

Principle of least effort - Wikipedia

If you are in a place of resistance about something, look for the fear behind it and find a way to dissipate it. Meditation is one way, but so is arming yourself with knowledge, telling yourself a different story (i.e. stop scaring yourself), making phone calls, and getting into action. 4. Focus on something else.

Path of Least Resistance : Learning to Become the Creative Force in Your Own Life by Robert Fritz (1989, Trade Paperback)

Path of Least Resistance : Learning to Become the Creative ...

Robert Fritz's Path of Least Resistance is an empowering guide to creating a life that reflects your abilities and passions. It's not a New Age book, in that the author does not teach that everything that happens to us stems from our conscious attitudes and intentions. He presents very good evidence as to why affirmations and will power don't work.

Amazon.com: Customer reviews: Path of Least Resistance ...

The path of least resistance in problem solving is to move from worse to better and then from better to worse again. This is because the actions taken are generated by the problem. If the intensity of the problem is lessened by the actions one took, there is less motivation to take further actions.
