today. Landscape is much more than scenery to be observed or even terrain to be traveled, as this fascinating and many-layered book vividly shows us.

Reading the Forested Landscape -
The Compleat Naturalist

Reading the Forested Landscape, first of all, plainly deserves readers outside of New England. While the particular forests the book looks at are in the northeast, Tom Wessels' approach and style won't be lost on anyone with an interest in natural history. Give this as a gift to a birding friend, or for someone to keep in their cabin.

Where To Download Reading The Forested

"Reading the Forested Landscape, a Natural History of New England". These books are amazing in that they point out information left by previous natural events and humans. If a tree falls and there is no one there to hear it, does it make a noise? Yes, and what it says is so simply explained by Wessels.
