This is the story of Chorost's journey -- from deafness to hearing, from human to cyborg - Born hard of hearing in 1964, he went completely deaf in his thirties. Rather than live in silence, he chose to have a computer surgically embedded in his skull to artificially restore his hearing.

The author describes his experiences as he loses his hearing while in his thirties and then receives a computer chip implant that

and with the love and respect of his fellow angels, he has become the most powerful angel in heaven. During his past five-thousand years of afterlife, he first believed that he had everything he could ever want, but something was missing, he needed and wanted more. Originally, a still-born, human soul, he never had a chance at life outside of heaven. But then something happened that made him desire what he had lost. It was Yahweh's encouragement and plan for him to return to Earth and live as a human, however, returning would not be that simple. Becoming the first of his kind, Gabriel would retain his angel

But it will be Yahweh who orchestrates the situation by keeping Gabriel from knowing his fate and future destiny. Many adventures befall our hero, as he navigates through childhood, adolescence, adulthood, and the difficulties with romance. When Gabriel is forced to persevere over earthly and un-earthly villains, his lessons become more profound. With the help from his heavenly

humanity's survival. In 2027, the Great Disruption shook the world. An unexplained solar storm struck the earth, shifting it four degrees south on its axis. Everything went dark. Humanity was on the verge of despair. Then a man named Camden Ford discovered a set of ancient books called the Chronicles of Satraya. Thirty years later, the world is a different place. Thanks to the teachings of the Chronicles, hope has been restored, cities rebuilt, technology advanced. The books also have a different owner: Logan Cutler, who inherited them when Camden mysteriously disappeared. But when

Logan auctions off the books to pay his debts, they fall into the wrong hands. The Reges Hominum, a clandestine group that once ruled history from the shadows, is launching a worldwide conspiracy to regain control. Soon Logan realizes he's made a terrible mistake. With the help of special agent Valerie Perrot and the wisdom of the Chronicles as his guide, he embarks on an epic quest to get the books back before it's too late. Abounding with questions about humanity's secret past and its unknown future, Journey into the Flame will not only take you to the start of an incredible new

Hello Friend, I have been anxiously waiting to share this information with you because it has given me a new lease on life and hopefully, it will do the same for you. SPIRIT, AND BODY. Upon reading the book of Nehemiah, a book in the Old Testament of the Bible, I discovered some life principles that enabled me to rebuild or "renew" my body in a relatively short time. Nehemiah 6:15 states, "So the wall was finished on the twenty and fifth day of the Month Elul, in fifty and two days." That scripture struck me like a bolt of lightning, and I said to myself, "If Nehemiah with the help of the Lord could rebuild the walls of a city in 52 days, certainly the Lord and I can rebuild my body in 52 days. So I began my quest to rebuild my body in 52 days. Results: I would like to

We doubt? Where we came from and where we're going. And we question things in God daily. I was left with being able to see what we have to look forward to and how important faces. If you reach out and ask the Lord, to come into your life and you love him. He will come in to your life

At the age of 19, Ian Waterman was suddenly struck down at work by a rare neurological illness that deprived him of all sensation below the neck. He fell on the floor in a heap, unable to stand or control his limbs, having lost the sense of joint position and proprioception, of that "sixth sense" of his body in space, which we all take for granted. After months in a neurological ward he was judged incurable and condemned to a life of wheelchair dependence. This is the first U.S. publication of a remarkable book by his physician, Jonathan Cole. It tells the compelling story, including a clear clinical

description of a rare condition, of how Waterman reclaimed a life of full mobility against all expectations, by mental effort and sheer courage. Cole describes how Waterman gradually adapted to his strange condition. As the doctors had predicted, there was no neurological recovery. He had to monitor every movement by sight to work out where his limbs were, since he had no feedback from his peripheral nerves. But with astonishing persistence Waterman developed elaborate tricks and strategies to control his movements, enabling him to cope not only with the day-to-day problems of living, but
