The story of a dog, his human, and the friendship that saved both of their lives. When Ben Moon moved from the Midwest to Oregon, he hadn't planned on getting a dog. But when he first met the soulful gaze of a rescue pup in a shelter, Ben instantly felt a connection, and his friendship with Denali was born. The two of them set out on the road together, on an adventure that would take them across the American west and through some of the best years of their lives. But when Ben was diagnosed with colorectal cancer at age 29, he faced a difficult battle with the disease, and Denali never once left his side until they were back out surfing and climbing crags. It was only a short time later that Denali was struck by the same disease, and Ben had the chance to return the favor. Denali is the story of this powerful friendship that shaped Ben and Denali's lives, showing the strength and love that we give and receive when we have our friends by our side.

practice approach to understanding the pedagogy behind ePortfolios and to helping students use them to record and reflect on their learning in multiple contexts. The authors outline a framework of six critical iterative tasks to undertake when implementing ePortfolios for student success. Filled with real-life models of successful ePortfolio projects, the book also includes guidance for faculty development to support the use of ePortfolios and covers the place of ePortfolios in institutional assessment efforts. Finally, the authors offer considerations for deciding on which technological tools to deploy in implementing a successful ePortfolio initiative. "These authors achieve the very rare accomplishment of combining their years of practical experience, broad conceptual and research underpinnings, and incredibly useful examples and applications into a single, concise volume for enhancing student learning through an ePortfolio approach to our shared educational purpose." -TERREL L. RHODES, vice president, Office of Quality, Curriculum, and Assessment, Association of American Colleges and Universities "Educators keep asking for more information about how to use electronic portfolios. This book provides answers, guidelines, examples, and scholarly insights about learning based in the wisdom of the ePortfolio community of practice—what a powerful addition to our collective knowledge! I am thankful to the authors for this boost to our field and for providing a blueprint for implementers to follow." -TRENT BATSON, executive director, The Association for Authentic, Experiential and Evidence-Based Learning
