About the Author. David Titterton
is a principal scientist at DRA,

File Type PDF Strapdown Inertial Navigation

Researching novel technology. He spent more than a decade researching navigation and guidance technology for a range of aerospace applications, which led to a number of publications. During this time he was also involved in the development and evaluation of

File Type PDF Strapdown Inertial Navigation

miniature inertial sensors, and he also studied the "system issues" associated with the integration of strapdown technology to new applications.
