This book is an attempt to coax Roman history closer to the bone, to the breath and matter of the living being. Drawing from a remarkable array of ancient and modern sources, Carlin Barton offers the most complex understanding to date of the emotional and spiritual life of the ancient Romans. Her provocative and original inquiry focuses on the sentiments of honor that shaped the Romans' sense of themselves and their society. Speaking directly to the concerns and curiosities of the contemporary reader, Barton brings Roman society to life, elucidating the complex relation between the inner life of its citizens and its social fabric. Though thoroughly grounded in the ancient writings--especially the work of Seneca, Cicero, and Livy--this book also draws from contemporary theories of the self and social theory to deepen our understanding of ancient Rome. Barton explores the relation between inner desires and social behavior through an evocative analysis of the operation, in Roman society, of contests and ordeals, acts of supplication and confession, and the sense of shame. As she fleshes out Roman physical and psychological life, she particularly sheds new light on the consequential transition from republic to empire as a watershed of Roman social relations. Barton's ability to build productively on both old and new scholarship on Roman history, society, and culture and her imaginative use of a wide range of work in such fields as anthropology, sociology, psychology, modern history, and popular culture will make this book appealing for readers interested in many subjects. This beautifully written work not only generates insight into Roman history, but also uses that insight to bring us to a new understanding of ourselves, our modern codes of honor, and why it is that we think and act the way we do.

An indispensable, hands-on guide dedicated to the lost art of being a man, *The Illustrated Art of Manliness* distills more than 100 practical skills every modern man needs to know into an entertaining, easy-to-follow visual format. Founder of *The Art of Manliness* Brett McKay and bestselling illustrator Ted Slampyak write brilliantly illustrated articles to help men be the best fathers, brothers, sons, and men they can be. This book features their most essential work alongside dozens of never-before seen guides on subjects ranging from chivalry and self-defense to courage and car repair, including: How to disarm an attacker How to fell a tree and start a fire anywhere How a car engine works, and how to fix it How to use every tool in your toolbox What to wear on a first date and to a job interview How to lead a meeting and command the attention of a room How to dance, fight, shave, shake a hand, pick a lock, and fire a gun And other advice for when you're lost, in danger, or merely confronting a shirt that needs to be ironed. *The Illustrated Art of Manliness* features a classic, timeless package, including full-color illustrations, and will be a perfect gift for you or the man in your life.

Dressing the Man is the definitive guide to what men need to know in order to dress well and look stylish without becoming fashion victims. Alan Flusser's name is synonymous with taste and style. With his new book, he combines his encyclopedic knowledge of men's clothes with his signature wit and elegance to address the fundamental paradox of modern men's fashion: Why, after men today have spent more money on clothes than in any other period of history, are there fewer well-dressed men than at any time ever before? According to Flusser, dressing well is not all that difficult, the real challenge lies in being able to acquire the right personalized instruction. Dressing well pivots on two pillars -- proportion and color. Flusser believes that "Permanent Fashionability," both his promise and goal for the reader, starts by being accountable to a personal set of physical trademarks and not to any kind of random, seasonally served-up collection of fashion flashes. Unlike fashion, which is obliged to change each season, the face's shape, the neck's height, the shoulder's width, the arm's length, the torso's structure, and the foot's size remain fairly constant over time. Once a man learns how to adapt the fundamentals of permanent fashion to his physique and complexion, he's halfway home. Taking the reader through each major clothing classification step-by-step, this user-friendly guide helps you apply your own specifics to a series of dressing options, from business casual and formalwear to pattern-on-pattern coordination, or how to choose the most flattering clothing silhouette for your body type and shirt collar for your face. A man's physical traits represent his individual road map, and the quickest route toward forging an enduring style of dress is through exposure to the legendary practitioners of this rare masculine art. Flusser has assembled the largest and most diverse collection of stylishly mantled men ever found in one book. Many never-before-seen vintage photographs from the era of Cary Grant, Tyrone Power, and Fred Astaire are employed to help illustrate the range and diversity of authentic men's fashion. *Dressing the Man*'s sheer magnitude of options will enable the reader to expand both the grammar and verbiage of his permanent-fashion vocabulary. For those men hoping to find sartorial fulfillment somewhere down the road, tethering their journey to the mind-set of permanent fashion will deliver them earlier rather than later in life.

In October 1994, Nathaniel Turner received news that left him petrified and ecstatic - he was going to be a father. Turner was inexperienced and unprepared. There was no guidebook on how to be a father. Determined to defy stereotypes and to be a great father, Turner created his own parenting manual. *Raising Supaman* is a collection of beautifully written letters Turner wrote to his son. The wonderfully loving letters established the "relational legacy," provided instruction on being a great citizen, inspired his son to strive for excellence, and left a historical account of a parent's love. *Raising Supaman* is loaded with practical, insightful and useful tips to help parents. *Raising Supaman* encourages parents to be their best so that they can raise successful children. Whether you are dealing with the growing pains of a child or whether you are attempting to inspire or motivate a child, *Raising Supaman* is a must read. If you've been looking for the answers: an instructional manual for great parenting, a tool to improve your relationship with your child and a guidebook that can inspire a child to consistently reach for the moon, *Raising Supaman* is just the book for you.

In 1778, George Washington unleashed an unlikely ring of spies in New York to discover British battle plans.

Allesan, son of the king of Tigana, and other survivors of the forgotten world band together to plot the demise of Brandin of Ygrath.

Use These Powerful Techniques to Immediately Begin Increasing Your Testosterone Levels Are you feeling like you don't have the energy you once had? Are you feeling less motivated? Are you finding it more challenging to stay in an emotionally happy state of being? Has your sex drive gone down? Do you want to live in a more fulfilling life where you are happier and energetic? You may think that the easiest way to achieve this is to turn to medication; however, you could never be more wrong. What you need is to boost your testosterone levels. By simply optimizing your testosterone your level of energy, sexual drive, and passion for life will all significantly improve. As you are aware, in the modern day society, we are exposed to a plethora of toxins on a daily basis from products that we use to the water that we drink and the air that we breath. As well as undergoing daily stress and anxiety, whether it be work, financial, or relationship issues. All of these stresses and toxins play a toll on our hormones and natural testosterone levels. The good news is that there are things you can do today that will immediately begin to boost your testosterone levels naturally! This book will help you to learn about testosterone; and you will learn how you can start immediately optimizing your testosterone levels in order to enjoy a higher sex drive, more motivation, increased muscle mass, ability to burn fat faster, and a more confident version of yourself. You need this book. Here Is A Preview Of What You'll Learn... What are Hormones? What is Testosterone? -Testosterone and Age -Steroids and Other Performance Enhancing Substances in Sport -How to Adjust Testosterone Levels -Is It Possible to Transform your Masculinity In 30 Days Using Testosterone? -The Thirty Day Challenge -And Much, Much More!

Play is one of humanity's straightforward yet deceitful ideas: though the notion is unanimously agreed upon to be universal, used for man and animal alike, nothing defines what all its manifestations share, from childish playtime to on stage drama, from sporting events to market speculation. Within the author's anthropological field of work (Mongolia and Siberia), playing holds a core position: national holidays are called "Games," echoing in that way the circus games in Ancient Rome and today's Olympics. These games convey ethical values and local identity. Roberte Hamayon bases her analysis of the playing spectrum on their scrutiny. Starting from fighting and dancing, encompassing learning, interaction, emotion and strategy, this study heads towards luck and belief as well as the ambiguity of the relation to fiction and reality. It closes by indicating two features of play: its margin and its metaphorical structure. Ultimately revealing its consistency and coherence, the author displays play as a modality of action of its own. "Playing is no 'doing' in the ordinary sense" once wrote Johan Huizinga. Isn't playing doing something else, elsewhere and otherwise ?

Plutarch's essay 'How to Study Poetry' offers a set of reading practices intended to remove the potential damage that poetry can do to the moral health of young readers. It opens a window on to a world of ancient education and scholarship which can seem rather alien to those brought up in the highly sophisticated world of modern literary theory and criticism. The full Introduction and Commentary, by two of the world's leading scholars in the field, trace the origins and intellectual affiliations of Plutarch's method and fully illustrate the background to each of his examples. As such this book may serve as an introduction to the whole subject of ancient reading practices and literary criticism. The Commentary also pays particular attention to grammar, syntax and style, and sets this essay within the context of Plutarch's thought and writing more generally.
