This is how the Discworld began. Here is the sapient pearwood Luggage, a mobile trunk which launders any clothes put in it and incidentally homicidally defends its owner. Here is Twoflower, an innocent tourist in a world of nightmares and fairy tales

The Color of Magic is Terry Pratchett's maiden voyage through the now-legendary land of Discworld. This is where it all begins? with the tourist Twoflower and his wizard guide, Rincewind.

Twoflower was a tourist, the first ever seen on the Discworld. Tourist, Rincewind decided, meant idiot. Somewhere on the frontier between thought and reality exists the Discworld, a parallel time and place which might sound and smell very much like our own, but which looks completely different. It plays by different rules. Certainly it refuses to succumb to the quaint notion that universes are ruled by pure logic and the harmony of numbers. But just because the Disc is different doesn't mean that some things don't stay the same. Its very existence is about to be threatened by a strange new blight: the arrival of the first tourist, upon whose survival rests the peace and prosperity of the land. But if the person charged with maintaining that survival in the face of robbers, mercenaries and, well, Death is a spectacularly inept wizard, a little logic might turn out to be a very good idea...

Imagine a flat world, sitting on the backs of four elephants, who hurtle through space balanced on a giant turtle. The Discworld is a place (and a time) parallel to our own - but also very different. That is the setting for Terry Pratchett's phenomenally successful Discworld series, which now celebrates its 25th anniversary. The Discworld Graphic Novels presents the very first two volumes of this much-loved series in graphic novel form. First published fifteen years ago, these fully illustrated versions are now issued for the first time in hardback. Introduced here are the bizarre misadventures of Twoflower, the Discworld's first ever tourist, and possibly - portentously - its last, and his guide Rincewind, the spectacularly inept wizard. Not to mention the Luggage, which has a mind of its own.

In a distant and second-hand set of dimensions, in an astral plane that was never meant to fly . . . Imagine a flat world sitting on the backs of four elephants who hurtle through space balanced on a giant turtle. The Discworld is a place (and a time) strikingly parallel to our own - but also very different. But also very similar. To commemorate the twenty-fifth anniversary of the birth of the Discworld, the first two volumes of the remarkable Terry Pratchett's equally remarkable - and phenomenally successful - series were made available together, right here, in graphic novel form. These beautifully illustrated renditions of The Colour of Magic and The

Light Fantastic show and tell the bizarre misadventures of the spectacularly inept wizard Rincewind and Twoflower, Discworld's very first—and possibly, portentously its very last—tourist. Not to mention the Luggage, which has a mind of its own. And teeth.

Terry Pratchett's profoundly irreverent novels are consistent number one bestsellers in England, where they have garnered him a revered position in the halls of parody next to Mark Twain, Kurt Vonnegut, Douglas Adams, and Carl Hiaasen. In *The Light Fantastic* only one individual can save the world from a disastrous collision.

Unfortunately, the hero happens to be the singularly inept wizard Rincewind, who was last seen falling off the edge of the world...

The absolute, comprehensive, from Tiffany Aching to Jack Zweiblumens guide to all things Discworld, fully illustrated by Paul Kidby. The Discworld, as everyone knows, is a flat world balanced on the back of four elephants which, in turn, stand on the shell of the giant star turtle, the Great A'Tuin, as it slowly swims through space. It is also the global publishing phenomenon with sales of over 70 million books worldwide (but who's counting?). There's an awful lot of Discworld to keep track of. But fear not! Help is at hand. For the very first time, everything (and we mean everything) you could possibly want to know has been crammed into one place. If you need a handy guide to locales from Ankh-Morpork to Zemphis . . . If you can't tell your Achmed the Mads from your Jack Zweiblumens . . . If your life depends on distinguishing between the Agatean Empire and the Zoons . . . Look no further. Compiled and perfected by Stephen Briggs, the man behind *The Ultimate Discworld Companion's* predecessor *Turtle Recall*, this is your ultimate guide to Sir Terry Pratchett's beloved fantasy world.
