From the “startlingly talented” (New York Times) author of Everything Matters!—a bold and timely novel about a grieving man dedicated to unmasking the role that lies and delusions play in our reactionary times “Nobody writing today walks the knife edge of cynicism and sentiment more bravely, intelligently and confidently than Ron Currie. By turns hilarious and heartfelt, The One-Eyed Man is a revelation, a wonder.” --Richard Russo “Dark, tender, and oh-so-timely.” – USA Today Ron Currie’s three previous works of fiction have dazzled readers and critics alike with their originality, audacity, and psychological insight. The colony world of Stittara is no ordinary planet. For the interstellar Unity of the Ceylesian Arm, Stittara is the primary source of anagathics: drugs that have more than doubled the human life span. But the ecological balance that makes anagathics possible on Stittara is fragile, and the Unity government has a vital interest in making sure the flow of longevity drugs remains uninterrupted, even if it means uprooting the human settlements. assessing the ecological impact of the human presence on Stittara, freelance consultant Dr. Paulo Verano jumps at the chance to escape the ruin of his personal life. He gets far more than he bargained for: Stittara's atmosphere is populated with skytubes—gigantic, mysterious airborne organisms that drift like clouds above the surface of the planet. Their exact nature has eluded humanity for centuries, but Verano believes his conclusions about Stittara may hinge on understanding the skytubes' role in the planet's ecology—if he survives the hurricane winds, distrustful settlers, and secret agendas that impede his investigation at every turn. One of his opponents is "Bayonet Bill" Wooster, an ex-marine general who bases his campaign on fear of racial integration, fear of Communists, and fear of the federal government; he presents himself as the leader in a holy war against the incumbent infidel. The other candidate is Poppa Posey, a former governor who raises hound dogs, quotes Shakespeare, and hopes to use Wooster's money to split support for Blanton. Only Blanton understands that integration is inevitable and that his task must be to make the transition as painless and bloodless as possible. That he fails may be due in part to his freewheeling, power-driven personality. But Blanton is also defeated by inertia, tradition, and demagoguery. He is, as he once describes himself, someone "who just got in the way of goddamn history". Is the

state Texas and the governor Lyndon B. Johnson? King denies it, arguing that there are equal parts of Huey Long, Herman Talmadge, and Alfalfa Bill Murray. But, as Erisman says in his foreword, "Blanton, in his wheeling and dealing, his crudities and profanity, his ruthlessness and his compassion, is a dead-on portrait of LBJ in full cry". The One-Eyed Man presents a hauntingly clear picture of the 1960s in the South -- the national grief over the assassination of President John F. Kennedy, the racial turmoil, the human dilemma faced by North and South alike. And it poses haunting questions for the reader: what separates the demagogue from the leader? What injustices are acceptable in the name of a larger justice? Who determines the greatest good for the greatest number?

facing a most difficult investigation. After two men die from snake bites she's unable to determine the species of snake. Hearing of a similar death of a man in Florida she believes the three deaths may be connected. She's concerned. Is there one killer with one snake, or two or even three killers with other snakes? The venom chemistries are identical but unknown to medical professionals, herpetologists or the world of dealers in illegally imported exotic species. She finds that the three victims served in Vietnam in a military patrol. Her search for other members of the patrol is blocked by military authorities. However she discovers who they are and that three of the eight-man patrol have died before the recent murders. There are now two suspects—she must find the owner of the deadly snake before it's allowed to kill again.

Fate, circumstance, and the symbolism of sight collide in this modern gothic novel. On a hot June day in 1965, two six-year-old boys, Gareth and Jack, compete to see who can climb higher up a tree. When Jack falls and loses his eye on a thorn bush, the accident sets off a series of events that will bind the boys together for the rest of their lives. When the best friends meet albino twins Clara and Blanca, a shared fate unfolds. With Gareth and Jack's help, the twins are able to reclaim their lives and leave their nightmarish past behind them. From the shores of Lake Ontario to the hustle of Berlin, from the art of ocularity to punk opera, this is a story of dark secrets, suppressed desires, forgiveness, and love.
