Examines the life of Kurban Said, detailing his birth into a wealthy Jewish family, his flight from the Russian Revolution, his transformation into a Muslim prince, and his success as a best-selling author in Nazi Germany.

The Orientalist unravels the mysterious life of a man born on the border between West and East, a Jewish man with a passion for the Arab world. Tom Reiss first came across the man who called himself 'Kurban Said' when he went to the ex-USSR to research the oil business on the Caspian Sea, and discovered a novel instead. Written on the eve of the Second World War, Ali and Nino is a captivating love story set in the glamorous city of Baku, Azerbaijan's capital. The novel's depiction of a lost cosmopolitan society is enthralling, but equally intriguing is the identity of the man who wrote it. Who was its supposed author? And why was he so forgotten that no one could agree on the simplest facts about him? For five years, Reiss tracked Lev Nussimbaum, alias Kurban Said, from a wealthy Jewish childhood in Baku, to a romantic adolescence in Persia on the run from the Bolsheviks, and an exile in Berlin as bestselling author and self-proclaimed Muslim prince. The result is a thoroughly unexpected picture of the twentieth-century - of the origins of our ideas about race and religious self-definition, and of the roots of modern fanaticism.

WINNER OF THE 2013 PULITZER PRIZE FOR BIOGRAPHY General Alex Dumas is a man almost unknown today, yet his story is strikingly familiar—because his son, the novelist Alexandre Dumas, used his larger-than-life feats as inspiration for such classics as *The Count of Monte Cristo* and *The Three Musketeers*. But, hidden behind General Dumas's swashbuckling adventures was an even more incredible secret: he was the son of a black slave—who rose higher in the white world than any man of his race would before our own time. Born in Saint-Domingue (now Haiti), Alex Dumas made his way to Paris, where he rose to command armies at the height of the Revolution—until he met an implacable enemy he could not defeat. *The Black Count* is simultaneously a riveting adventure story, a lushly textured evocation of 18th-century France, and a window into the modern world's first multi-racial society. *TIME* magazine called *The Black Count* "one of those quintessentially human stories of strength and courage that sheds light on the historical moment that made it possible." But it is also a heartbreaking story of the enduring bonds of love between a father and son.

Yashim is no ordinary detective. It's not that he's particularly brave. Or that he cooks so well, or reads French novels. Not even that his best friend is the Ambassador from Poland, whose country has vanished from the map. Yashim is a eunuch. As the Sultan plans a series of radical reforms to his empire, a

concubine is strangled in the palace harem. And a young cadet is found butchered in the streets of Istanbul. Delving deep into the city's crooked alleyways, and deeper still into its tumultuous past, Yashim discovers that some people will go to any lengths to preserve the traditions of the Ottoman Empire. Brilliantly evoking Istanbul in the 1830s, *The Ottoman Detective* is a fast-paced literary thriller with a spectacular cast, from mystic orders and lissom archivists to soup-makers and a seductive ambassador's wife. Darker than any of these is the mysterious figure who controls the Sultan's harem.

Essad Bey, the sickly son of an oil millionaire from Baku, Azerbaijan, receives permission from his father to spend the summer with his "milk brother" Ali Khan, passing the holiday in his home village in the wild Caucasus. So the two set out, under the custody of a wise attendant, into an archaic world in which chivalry counted more than buying power and poets were more highly regarded than princes — into a country in which, as a kind of curiosity shop of world history, all that is outlived and forgotten was loyally preserved. This is Essad Bey's second book, which was first published in 1930. In it the author draws upon his Oriental imaginative powers, conjuring a vast panorama of the Caucasus, its people and customs. The result is a fresh and densely atmospheric work, even if not always laying claim to scientific accuracy. Often adding a touch of imagination, the author succeeds in bringing the heart and soul of this archaic world to life, which he had himself experienced and learned to love as a child.

The Orientalists pursues the mid to late 19th century, when American and European artists traveled and painted throughout the Holy Land and India. The highly cinematic images they created suggest a great influence on modern visual culture.

Astonishing. Searingly honest with plenty of drama it is the true story of a young life led that promised much, delivered more that could ever have been envisaged until the bottom fell out of the author's world. From the realms of high finance and a chance encounter with the President to the comedic pathos of the participation in a football tournament, as an inpatient of a psychiatric facility. After a lengthy period flat out on the canvas of life, our pugilist in all but name, gets back into the ring and makes another attempt, successful again, to prove you can't keep a good man down. If only that were the end of the story. But there's a sting in the tail that brings readers up short. The lesson: it really is a good idea to make the most of every day granted to you. Tom Reiss professes to know less and less about life as he poignantly, and with good humour, reflects upon his own. Reiss's mastery of storytelling through his melodic prose gently guides the reader through the most compelling of lives. Quintessentially, this is a beautiful memoir by a truly remarkable man. Read it. You'll be surprised by what you may learn.

Ali and Nino, two lovers from vastly different backgrounds, grow up together in carefree innocence in Baku on the Caspian Sea. Here, where Eastern and Occidental collide, they are inevitably drawn into the events of the First World War and the Russian Revolution. Torn apart by the turmoil, Ali joins the defense of Azerbaijan from the onslaught of the Red Army, and Nino flees to the safety of Paris with their child, not knowing whether they will ever see each other again. A sweeping tale, as romantic and gripping as *Gone with the Wind* or *Dr. Zhivago*, it portrays, against a gloriously exotic backdrop, the enduring love between childhood friends divided by their separate cultures.

No American author of the early 19th century enjoys a larger international audience than Edgar Allan Poe. Widely translated, read, and studied, he occupies an iconic place in global culture. Such acclaim would have gratified Poe, who deliberately wrote for "the world at large" and mocked the provincialism of strictly nationalistic themes. Partly for this reason, early literary historians cast Poe as an outsider, regarding his dark fantasies as extraneous to American

life and experience. Only in the 20th century did Poe finally gain a prominent place in the national canon. Changing critical approaches have deepened our understanding of Poe's complexity and revealed an author who defies easy classification. New models of interpretation have excited fresh debates about his essential genius, his subversive imagination, his cultural insight, and his ultimate impact, urging an expansive reconsideration of his literary achievement. Edited by leading experts J. Gerald Kennedy and Scott Peeples, this volume presents a sweeping reexamination of Poe's work. Forty-five distinguished scholars address Poe's troubled life and checkered career as a "magazinish," his poetry and prose, and his reviews, essays, opinions, and marginalia. The chapters provide fresh insights into Poe's lasting impact on subsequent literature, music, art, comics, and film and illuminate his radical conception of the universe, science, and the human mind. Wide-ranging and thought-provoking, this Handbook reveals a thoroughly modern Poe, whose timeless fables of peril and loss will continue to attract new generations of readers and scholars.
