Lama Yeshe didn't see a car until he was fifteen years old. In his quiet village, he and other children ran through fields with yaks and mastiffs. The rhythm of life was anchored by the pastoral cycles. The arrival of Chinese army cars in 1959 changed everything. In the wake of the deadly Tibetan Uprising, he escaped to India through the Himalayas as a refugee. One of only 13 survivors out of 300 travellers, he spent the next few years in America, experiencing the excesses of the Woodstock generation before reforming in Europe. Now in his seventies and a leading monk at the Samye Ling monastery in Scotland - the first Buddhist centre in the West - Lama Yeshe casts a hopeful look back at his momentous life. From his learnings on self-compassion and discipline to his trials and tribulations with loss and failure, his poignant story mirrors our own struggles. Written with erudition and humour, From a Mountain in Tibet shines a light on how the most desperate of situations can help us to uncover vital life lessons and attain lasting peace and contentment.

After dying, a Tibetan woodcutter is given the choice of going to heaven or to live another life anywhere in the universe.

A powerful, emotional memoir and an extraordinary portrait of three generations of Tibetan women whose lives are forever changed when Chairman Mao's Red Army crushes Tibetan independence, sending a young mother and her six-year-old daughter on a treacherous journey across the snowy Himalayas toward freedom Kunsang thought she would never leave Tibet. One of the country's youngest Buddhist nuns, she grew up in a remote mountain village where, as a teenager, she entered the local nunnery. Though simple, Kunsang's life gave her all she needed: a oneness with nature and a sense of the spiritual in all things. She married a monk, had two children, and lived in peace and prayer. But not for long. There was a saying in Tibet: "When the iron bird flies and horses run on wheels, the Tibetan people will be scattered like ants across the face of the earth." The Chinese invasion of Tibet in 1950 changed everything. When soldiers arrived at her mountain monastery, destroying everything in their path, Kunsang and her family fled across the Himalayas only to spend years in Indian refugee camps. She lost both her husband and her youngest child on that journey, but the future held an extraordinary turn of events that would forever change her life--the arrival in the refugee camps of a cultured young Swiss man long fascinated with Tibet. Martin Brauen will fall instantly in love with Kunsang's young daughter, Sonam, eventually winning her heart and hand, and taking mother and daughter with him to Switzerland, where Yangzom will be born. Many stories lie hidden until the right person arrives to tell them. In rescuing the story of her now 90-year-old inspirational grandmother and her mother, Yangzom Brauen has given us a book full of love, courage, and triumph, as well as allowing us a rare and vivid glimpse of life in rural Tibet before the arrival of the Chinese. Most importantly, though, ACROSS MANY MOUNTAINS is a testament to three strong, determined women who are linked by an unbreakable family bond.

The Way and the Mountain is a selection of Marco Pallis' most important writings on Tibetan Buddhism. Pallis traveled extensively in the Himalayas and studied Buddhism from Lamas within the tradition before the communist invasion of Tibet in 1949.

This true story of spiritual mountain adventure is told by a trekking group's leader, a teacher of Tibetan Buddhism, and one of its members, a student struggling to acclimate both physically and emotionally to his surroundings.

(4) Truth of the path leading to the annihilation of suffering.

A former leader of the Tibetan resistance relates her childhood as the daughter of a Khampa chieftain, her arrest by the Chinese followed by twenty-one years of imprisonment and torture, and her escape to India.

For Chris Bonington and Charles Clarke, long-time friends and expedition partners, few mountains were more alluring than Sepu Kangri. Known locally as "the Great White Snow God", Tibet's nearly 7,000-metre mountain had never before been visited by Westerners. Armed only with a tourist map for reference, the two set off for this elusive peak in 1996. In the reconnaissance and two expeditions that followed, neither of them were expecting to be profoundly impacted by their experiences. However, they not only met their match in Sepu Kangri, but both found their expertise pushed to the limit. While Clarke acted as a travelling doctor, treating myriad ailments encountered along the way, including a life-saving diagnosis of an ectopic pregnancy, Bonington's love of technology saw him testing out cutting-edge satellite phones and computers, allowing them to communicate with the outside world for the first time on an expedition. Tibet's Secret Mountain is a story of discovery as much as it is an account of the expeditions, and it is this that sets it apart from other mountaineering memoirs. The focus not only on the climbing itself, but the experiences, people and tensions that accompany it, offers a poignancy that anyone with a love of adventure will identify with. Beautifully written and full of unfailing cheer, Tibet's Secret Mountain is Bonington and Clarke's love letter to mountaineering.
