Argues that the foundation of success in business and personal pursuits is building trust, and outlines how to implement the eight pillars of trust in order to enjoy better relationships, reputations, and results.

The manual introduces general audiences to designing landscapes for urban stormwater runoff -- a primary source of watershed pollution. The goal is to motivate awareness and implementation of LID in a wide cross-section of stakeholders, from property owners to municipal governments that regulate infrastructure development. The manual provides a holistic framework in which a novice homeowner and an experienced developer can each find an equally transformative role to enact.
